OF CHICAG

FROM OTTAWA. Bees vs. City of Chicago.

Cisi Correspondence Chicago Tribune.) OTRAWA, April 11, 1808.

The motion will be overruled. LATTERS FROM THE PRO-PLE. Roundage, Round, April 10, 1965

Roams, April 10, 1808.

Racans, April 10, 1808.

"Give the devil his due," is an old Christian precept, one which every white man should feel himself bound to reapert, while at the sme time he should feel it equally incumbent upon himself, to do whatever lies in his power, to prevent his Majesty from receiving more than his." due," of which there is much greater danger than that he will ever be deprived thereof. The hundreds and perhaps thousands who have visited Dr. J. R. Newton during his stay in Chicago, do themselves and the community at large great injustice, by not publishing and exposing the imposition which he has practiced upon them. publishing and exposing the imposition which he has pussibled upon them.

Persons who suffer from disease, we all know, will, "frys" everything and anything which is advertised as a cure in its hope of regishing their health—and it is no wise sup-

which is advertised as a cure in the hope of regaining their bestim—and ft is no wise surprising that the sick and afflicted from far and cesur, reading the blustering advertisments and circulars of this cray old fanatic, and seeing no contradiction of the miradea, he has the imputence to tell the people in performs—should face to see him and pay his exception to core "without money and without price," but when you get there, you will find the programme sebstantially as follows: A lady usher stands at the door, and as you enter points out to you a gentlemen sitting at a deak on the opposite aide of the room, who is, you are informed Scretary to Dr. N., the doctor is in an adjoining room. You approach Mr. Scretary and call film you wish to see doctor; he sake your name and wishes the how how man you are worth! The invergency appearing somewhal impertinent—you maturally stop to reflect—when he relieves your embarissment by handing you a piscard, on which the "terms" are stated substantially as follows: Those desting treatment, who are worth \$1.000, must pay \$40; those worth \$4,000 must pay \$60; \$4,00 must pay \$80; \$4,00 must pay \$ dollars, and receive a licket of adminion to the adjoining room. Four it bed given due notice that a cure is guaranteed in me case, and if it guaranteed that no case would be cured, the guaranteed that no case would be cured, the guaranteed that no case would be cured, the guarantee would be equally and. Yo year in, where you find the doctor, a whorthesey built man, with a strong rigorous constitution, a man capable of carning a good living in a much more howerable business. He incurres "what sile you, he grain you by both hands, shuts his recommend to the disease in depart, passes his based over your hand and procument you carred. Eupopose it to be a care of herebes in the leg. Faithint say, "my leg is no better?" Decior thunders beer, "yeal it is, too; take that same is the other hand, you've no more unaffe in that I

Haie was a native of Bradford country, in this state, and was born in the year 1819. He was admitted to the bir at the age of twentry-two, and practiced; his profession with geat shilty till 1851, when he was appointed Fresident Dudge of the Twentieth Judicial district of Fennsylvania. His conduct on the same warmly marked by Justice and integrity, and I how-cittenes exhibited their confidence in, and case. For him, by choosing him as their representative in the National Congress for three auccessive terms. During his entire Congressional career he was a member, and in his last term construant, of the Committee on Cistma, a post in which his legal shifty and his unswerving integrity made him invaluable.

FINANCIAL AND COMMERCIAL MONETARY.

Warmenay Eventor, April 12, 1868.

The gold market for two days past has shown ministakable signs of weakness, and those who have been operating on the idea that gold would not full below 190 thit the volume of currency is dimitished, begin to deabt the correctness of their theory. At my rate gold today fell as low as 165, and closed weak at 165;. The general markets were active, chiefly owing to the large amount of produce which is sold for fature delivery by mere speciators, and the raining prices can excreely be called a fift indication of the tree market value of leading articles, such as Whest and Onis. We turns the dealers in produce will speed, by conjuncate to make preparations to ship as soon as savingation opens. Sooner or later prices here will assimilate to these of Eastern markets and the only legitimate manner of handling grain is to forward it to market as speedily as possible. The money market remains comparatively stringers, and the bents are discounting fravious paper to their best customers at 10 per cent per submn. Cell leans on Government scentrifles are easy at 10 per cent. On the sirvet, business is active umong the brokers, at 1624 per comb per month. Loans on first class paper to their best customers at 10 per cent per month. Loans on first class pages on person to lend freely to produce, pork, or whisky operators, and they are saxious to lend on real estate on long time at reasonable rates of interest.

There is little or no Eastern exchange making at precess, and rates are from at per buying and a permitted to meet their draits. The demand as an assembly active.

Gold opened to day in New York at 165, advance.

than the betractions at Drewry's Bluif. We are soon sheest of this historic fortification, and dayer eyes can closely its formidable walls and positions.

Here is the cheaf him of obstructions sunk who the rebels carly in the way, and located as they are.

Here is the cheaf him of obstructions sunk who the rebels carly in the way, and located as they are.

Here is the cheaf him of obstructions sunk who the rebels carly in the way, and located as they are.

But long subjecting ever, the subject of the purpose of Fort Bulling subjecting ever, the subject to be early developed in the subject to be enacted at such and the movement of large vessels attended with much danger. The obstructions were placed directly across the river, and filled it completely, with the exception of a pay of fifty or skyt feet, left for the passage of the robel fact and flag-of tagge boats. They comist of the halls of two or three old steamships, that formerly typed between Richmond and New York. The wheel-houses, fast crumbling to decay, still rice above the water, and present the appearance of a melancholy ruin.

We pass so hurriedly under the game of Fort Darling, that we have no good opportunity to observe its construction. We know it looks every strong, and on the north side is an examined fortification, and with its surrounding field works, all parts of the work its self, mounts not less than forty guns. All these, like hundreds more, are our trophics, without blemish or injure.

Not far above Fort Darling lies the wreck of one of the famous rabe fleet, in the James, when we have now send to the contract of or or or the famous rabe fleet, in the James, the inon-laid Yuginia. Whether she has been blown up or simply scuttled and mink cannot be ascertained from looking at her as the line. She sank in deep water, and is carrend over on her side, learning a portion of her oversham yields over the water-line. Of the other inon-clast, the Rehmond, we fad in ourse, and provide a sublimery was a substitute of the position which we find in vi

A Bemarkable Capture.

[Jointstill Cor. R. V. Harstil, 50.]
One of the most remarkable captures that has been made during the war occurred this morning. The lat brigade of Crook's division west out on the advance towards Burkesville, or Burke's Station, and, singular as it may appear on paper, captured one thousand prisoners, five magnificent Armstrong guas

A GLIMPSE OF THE OIL RE. GIONS OF CANADA.

great excitement.
For more than three years it has been known to some that deposits of petroleum have been found in Canada, but it was not until the publication of the able report of Sir William Logan, Director of the Geological Survey of the Frovines, that the attention of the American public was drawn to this point in Upper Canada, where the discoveries had been made. But since this Report was only just last sutumn distributed, and in the main its circulation has been among strictly scientific men; and inasmoch as the excitoment in Pennsylvania had first turned the attention of the whole world to Oil Creek and Cherry Run, it is hardly surprising that the yet more remarkable discoveries on the British.

There has been for some time past an asso-ciation in existence in Montreal, C. W., to rescue the St. Albans' raiders. It is compos-ed, of young men, who, in order to know each other, wear in their bathands a place of feath-
